EXPERIENCE

Product Designer • Houzz | 2019-2026

Led UX/UI design for Houzz Pro's 3D Floor Plans tool across web and mobile, including AR/LiDAR-based spatial capture workflows used by renovation professionals.

- Simplified complex spatial workflows into intuitive mobile-first experiences
- Collaborated closely with engineers to validate designs on-device and adapt quickly to technical constraints
- Designed scalable system-oriented features across project setup, customization, and spatial planning flows
- Shaped UX patterns for emerging technologies, translating unfamiliar interactions into clear user flows
- Guided new designers through product knowledge, workflows, and design rationale
- Audited product consistency and delivered detailed implementation specs aligned with the design system

UX/UI Designer • INTOX | 2018-2019

UX/UI designer for web and mobile projects in healthcare, tech, banking, and defense. Managed the full design process, facilitated design thinking workshops, and worked directly with stakeholders.

Content Writer and Editor • Hadashot.com | 2015-2018

Edited, translated, and categorized high-volume financial content. Developed strong skills in content hierarchy and clarity

Social Media Manager • Re-Levant Design | 2014-2015

Led content strategy and digital presence for a branding studio - from concept and visual assets to publication and promotion.

EDUCATION

User Experience Design

Netcraft Academy | 2018

BD.s in Design

Shenkar College of Engineering and Design | 2010-2014

SKILLS

Soft

Stakeholder collaboration
